Dear Mr. Murphy:

Re: Project Description: Multiklient Invest Newfoundland Offshore Seismic Program, 2024–2028

Multiklient Invest AS (MKI), a wholly owned subsidiary of Petroleum Geo-Services ASA, is proposing to conduct 2D, 3D and/or 4D seismic surveys offshore Newfoundland within the 2024-2028 timeframe.

Accompanying this letter is a Project Description as the first step in the Canada-Newfoundland and Labrador Offshore Petroleum Board's (C-NLOPB) environmental assessment (EA) process. This Project Description combined with the technical and scoping advice received from the C-NLOPB, other federal agencies, and stakeholders consulted by MKI will guide the preparation of an EA.

I would like to thank you for your attention to this matter and look forward to working with the C-NLOPB on this submission. Should you require any additional information or have any questions do not hesitate to contact me at the telephone number noted below.

Kind regards,

Sriram Arasanipalai, Area Manager
North and South America
