Subject: TC review: MKI 2025-2029 Seismic & Environmental Data Collection Program

Hi Ian,

Thanks for the chance to review. Transport Canada's comments are provided below for your awareness and the Proponent's consideration:

20240919-MKI PD-NL Offshore Seismic and Environmental Data.pdf

- Subsection 1.1, Page 2:
 - *Navigable Waters Protection Act* should be changed to *Canadian Navigable Waters Act* (CNWA). **Please note:** the CNWA's jurisdiction applies up to the 12NM (the Territorial Sea).
 - *Canada Shipping Act* should be *Canada Shipping Act, 2001*
 - Suggest adding *Coasting Trade Act*. Depending on the origin (flag state) of the seismic vessels, as well as the support vessels, and crew being used, there may be licensing requirements under Canada's *Coasting Trade Act*.

Feel free to reach out if you have any questions.

Kind regards,

J. Jason Flanagan, M.Sc.
